

Thornhow Boulder, Grizdale // 54.530260, -2.957524

Overlooking the approach track, immediately east of the small crag utilised by outdoor groups is a decent block hosting a few nice problems. The smaller blocks in the vicinity contain a few additional filler problems.

1. **Sprinkle Party** 7B+
The prowl from a sitter starting on a low LH sidepull and wide RH pinch.
2. **The Hawthorn** 7A
Essentially a distilled one-mover. Pull on via a RH side-cut and slopy LH sidepull, snatch for a high edge then up.
3. **The Hawthorn Sit** 7C+
A sitter from directly below the original on small crimps and side pulls.
4. **The Buckthorn** 6C
Pull on via a tilted LH edge and slopy RH pinchy edge, then pop to a good side pull and up.
5. **Buck Wild** 7A
Start sitting on the far right (big low edge), pull on then traverse left, keeping low, into and up P4.
6. **The Blackthorn** 4+
Start sitting at the big low edge on the far right then straight up.
